**ST. LOUIS – November 8, 2018** – Amdocs Limited (NASDAQ: DOX) today reported operating results for the three months ended September 30, 2018.

“We are pleased to report solid results in our fourth fiscal quarter. Revenue was slightly above the midpoint of our guidance and reflected normal customer fluctuations in North America, continued growth in Rest of World and our best quarter in more than a decade in Europe. At the operating level, our profitability was stable as we focused on consistent project execution and delivery. Overall, we wrapped up fiscal 2018 with full year non-GAAP diluted earnings per share growth of 6.1%, which is in line with the midpoint of the guidance range of 4.0% to 8.0% that we issued last November,” said Shuky Sheffer, president and chief executive officer of Amdocs Management Limited.

Sheffer continued, “Our sales momentum remained healthy in Q4 as we continued to penetrate new customers and new geographies with significant project and managed services awards. Among the highlights, we won our first ever transformation award with TIM, the largest communications provider in Italy, that further expands our customer footprint in this key European market. We also strengthened our position at PLDT in the Philippines where we signed a six-year managed IT infrastructure deal that adds to the seven-year, \$300 million managed transformation agreement that we signed only earlier this year”.

---

“Looking at the year ahead, the visibility of our record 12-month backlog points to an improved rate of revenue growth as we enable and support the continuous digital, media and network transformations of our customers. Taking everything in to consideration, we expect non-GAAP diluted earnings per share growth in the range of 3.0% to 7.0% in fiscal 2019. Moreover, we plan to further improve the total return we provide to shareholders by raising our quarterly dividend payment by 14% to 28.5 cents per share, subject to shareholders approval at the annual meeting in January 2019.”

### **Revenue**

Revenue for the fourth fiscal quarter ended September 30, 2018 was \$1.0 billion, up \$0.4 million sequentially from the third fiscal quarter of 2018 and up 2.3% as compared to last year’s fourth fiscal quarter. Revenue for the fourth fiscal quarter of 2018 includes a negative impact from foreign currency movements of approximately \$5 million relative to the third quarter of fiscal 2018.

For the fiscal year ended September 30, 2018, revenue increased by 2.8% to \$4.0 billion.

GAAP net income for the fourth quarter of fiscal 2018 includes a non-recurring charge of a loss of \$0.36 per diluted share, net of tax effect incurred to settle a previously disclosed long-running legal dispute. Net income on a non-GAAP basis was \$140.2 million, or \$0.99 per diluted share, compared to non-GAAP net income of \$137.4 million, or \$0.94 per diluted share, in the fourth quarter of fiscal 2017. Non-GAAP net income excludes amortization of purchased intangible assets and other acquisition-related costs, changes in certain acquisitions related liabilities measured at fair value, equity-based compensation expenses of \$12.9 million, and non-recurring charges of a loss incurred to settle a previously disclosed long-running legal dispute, net of related tax effects, in the fourth quarter of fiscal 2018.

## Non-GAAP Financial Measures

This release includes non-GAAP diluted earnings per share and other non-GAAP financial measures, including free cash flow, non-GAAP cost of revenue, non-GAAP research and development, non-GAAP selling, general and administrative, non-GAAP operating income, non-GAAP operating margin, non-GAAP income taxes, non-GAAP effective tax rate, non-GAAP net income and non-GAAP diluted earnings per share growth. These non-GAAP measures exclude the following items:

- amortization of purchased intangible assets and other acquisition-related costs;
- changes in certain acquisition-related liabilities measured at fair value;
- non-recurring and unusual charges;
- equity-based compensation expense; and
- tax effects related to the above.

These non-GAAP financial measures are not in accordance with, or an alternative for, generally accepted accounting principles and may be different from non-GAAP financial measures used by other companies. In addition, these non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles. Amdocs believes that non-GAAP financial measures have limitations in that they do not reflect all of the amounts associated with Amdocs' results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate Amdocs' results of operations in conjunction with the corresponding GAAP measures.

Amdocs believes that the presentation of non-GAAP diluted earnings per share and other financial measures, including free cash flow, non-GAAP cost of revenue, non-GAAP research and development, non-GAAP selling, general and administrative, non-GAAP operating income, non-GAAP operating margin, non-GAAP income taxes, non-GAAP effective tax rate, non-GAAP net income and non-GAAP diluted earnings per share growth when shown in conjunction with the corresponding GAAP measures, provides useful information to investors and management regarding financial and business trends relating to its financial condition and results of operations, as well as the net amount of cash generated by its business operations after taking into account capital spending required to maintain or expand the business.

For its internal budgeting process and in monitoring the results of the business, Amdocs' management uses financial statements that do not include amortization of purchased intangible assets and other acquisition-related costs, nonrecurring restructuring charges, nonrecurring and unusual charges related to a loss incurred to settle a previously disclosed long-running legal dispute, changes in certain acquisition-related liabilities measured at fair value, equity-based compensation expense and related tax effects. Amdocs' management also uses the foregoing non-GAAP financial measures, in addition to the corresponding GAAP measures, in reviewing the financial results of Amdocs. In addition, Amdocs believes that significant groups of investors exclude these items in reviewing its results and those of its competitors, because the amounts of the items between companies can vary greatly depending on the assumptions used by an individual company in determining the amounts of the items.

---

Amdocs further believes that, where the adjustments used in calculating non-GAAP diluted earnings per share are based on specific, identified amounts that impact different line items in the Consolidated Statements of Income (including cost of revenue, research and development, selling, general and administrative, operating income, income taxes and net income), it is useful to investors to understand how these specific line items in the Consolidated Statements of Income are affected by these adjustments. Please refer to the Reconciliation of Selected Financial Metrics from GAAP to Non-GAAP tables below.
