ST. LOUIS – November 12, 2019 – Amdocs Limited (NASDAQ: DOX) today reported operating results for the three months ended September 30, 2019.

“We are pleased to report a strong finish to our fiscal year 2019. Q4 revenue was in line with the midpoint of our guidance on a constant currency basis and was driven by stable trends in North America, solid year-over-year growth in Rest of World and our best quarter in more than a decade in Europe. Profitability was stable and cash collections were healthy as we met key milestones relating to our customer project activity. As such, we exceeded our fiscal 2019 target for normalized free cash flow of \$600 million and delivered full year non-GAAP earnings per share growth of 6.9%, which is consistent with the high end of the original guidance range of 3% to 7% that we provided last November,” said Shuky Sheffer, president and chief executive officer of Amdocs Management Limited.

Sheffer continued, “Today, we are excited to announce a multi-year agreement that extends our collaboration with AT&T to modernize and upgrade AT&T’s digital business support systems, as 5G and the cloud will lead to new business and consumer applications. In addition to customer experience and digital enablement programs, our alliance with AT&T will be expanded to include activities in strategic areas such as data analytics and security. We are very proud of our deep relationship spanning many decades with AT&T and we look forward to strengthening this relationship as the communications and media industry continues to innovate at an unprecedented pace.”

Sheffer concluded, “We begin fiscal 2020 with record 12-month backlog, which is up roughly 4% from a year ago, and we have further improved our strong visibility in the first quarter with the signing of a large IT transformation project at Vodafone Germany. Overall, we expect to deliver full year non-GAAP diluted earnings per share growth of 3.0% to 7.0%

in fiscal 2020. Moreover, we plan to further enhance the total return we provide to shareholders by raising our quarterly dividend for the seventh consecutive year, subject to shareholders approval at the annual meeting in January 2020”.

Revenue

Revenue for the fourth fiscal quarter of 2019 includes a negative impact from foreign currency movements of approximately \$3 million relative to the third quarter of fiscal 2019. Revenue was at the midpoint of Amdocs’ guidance, adjusting for the negative impact of approximately \$5 million of foreign currency movements relative to guidance.

Our first fiscal quarter 2020 and full year fiscal 2020 outlook takes into consideration the Company's expectations regarding macro and industry specific risks and various uncertainties and certain assumptions that we will discuss on our earnings conference call. However, Amdocs notes market dynamics continue to shift rapidly and that it cannot predict all possible outcomes, including those resulting from T-Mobile's proposed merger with Sprint, or from other current and potential customer consolidation activity.

Non-GAAP Financial Measures

This release includes non-GAAP diluted earnings per share and other non-GAAP financial measures, including free cash flow and normalized free cash flow, non-GAAP cost of revenue, non-GAAP research and development, non-GAAP selling, general and administrative, non-GAAP operating income, non-GAAP operating margin, non-GAAP interest and other expenses, net, non-GAAP income taxes, non-GAAP effective tax rate, non-GAAP net income and non-GAAP diluted earnings per share growth. These non-GAAP measures exclude the following items:

- amortization of purchased intangible assets and other acquisition-related costs;
- changes in certain acquisition-related liabilities measured at fair value;
- non-recurring and unusual charges;

-
- equity-based compensation expense;
 - other; and
 - tax effects related to the above.

Free cash flow equals cash generated by operating activities less net capital expenditures and other, and normalized free cash flow is adjusted to exclude net capital expenditures related to the new campus development, payments for previously expensed restructuring charges, payments for legal dispute settlement, and payments of acquisition related liabilities. These non-GAAP financial measures are not in accordance with, or an alternative for, generally accepted accounting principles and may be different from non-GAAP financial measures used by other companies. In addition, these non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles. Amdocs believes that non-GAAP financial measures have limitations in that they do not reflect all of the amounts associated with Amdocs' results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate Amdocs' results of operations in conjunction with the corresponding GAAP measures.

Amdocs believes that the presentation of non-GAAP diluted earnings per share and other financial measures, including free cash flow and normalized free cash flow, non-GAAP cost of revenue, non-GAAP research and development, non-GAAP selling, general and administrative, non-GAAP operating income, non-GAAP operating margin, non-GAAP interest and other expenses, net, non-GAAP income taxes, non-GAAP effective tax rate, non-GAAP net income and non-GAAP diluted earnings per share growth when shown in conjunction with the corresponding GAAP measures, provides useful information to investors and management regarding financial and business trends relating to its financial condition and results of operations, as well as the net amount of cash generated by its business operations after taking into account capital spending required to maintain or expand the business.

For its internal budgeting process and in monitoring the results of the business, Amdocs' management uses financial statements that do not include amortization of purchased

intangible assets and other acquisition-related costs, changes in certain acquisition-related liabilities measured at fair value, non-recurring and unusual charges, equity-based compensation expense, other and related tax effects. Amdocs' management also uses the foregoing non-GAAP financial measures, in addition to the corresponding GAAP measures, in reviewing the financial results of Amdocs. In addition, Amdocs believes that significant groups of investors exclude these items in reviewing its results and those of its competitors, because the amounts of the items between companies can vary greatly depending on the assumptions used by an individual company in determining the amounts of the items.

Amdocs further believes that, where the adjustments used in calculating non-GAAP diluted earnings per share are based on specific, identified amounts that impact different line items in the Consolidated Statements of Income (including cost of revenue, research and development, selling, general and administrative, operating income, interest and other expenses, net, income taxes and net income), it is useful to investors to understand how these specific line items in the Consolidated Statements of Income are affected by these adjustments. Please refer to the Reconciliation of Selected Financial Metrics from GAAP to Non-GAAP tables below.
