ST. LOUIS – November 10, 2015 – Amdocs Limited (NASDAQ: DOX) today reported that for its fourth fiscal quarter ended September 30, 2015, revenue was \$926.8 million, up 2.1% sequentially from the third fiscal quarter of 2015 and up 2.9% as compared to last year's fourth fiscal quarter. Fourth fiscal quarter revenue includes a negative impact from foreign currency movements of approximately \$9 million relative to the third quarter of fiscal 2015. Net income on a non-GAAP basis was \$130.4 million, or \$0.84 per diluted share, compared to non-GAAP net income of \$124.3 million, or \$0.78 per diluted share, in the fourth quarter of fiscal 2014. Non-GAAP net income excludes amortization of purchased intangible assets and other acquisition-related costs, nonrecurring restructuring charges associated with the acquisition of the Comverse BSS assets and equity-based compensation expenses of \$39.2 million, net of related tax effects, in the fourth quarter of fiscal 2015 and excludes such amortization and other acquisition-related costs, changes in fair value of certain acquisition-related liabilities and equity-based compensation expenses of \$23.8 million, net of related tax effects, in the fourth quarter of fiscal 2014. The Company's GAAP net income for the fourth quarter of fiscal 2015 was \$91.1 million, or \$0.59 per diluted share, compared to GAAP net income of \$100.5 million, or \$0.63 per diluted share, in the prior fiscal year's fourth quarter.

“We concluded fiscal 2015 with another solid quarter. Revenue was slightly above the mid-point of our expectations after adjusting for the negative impact of foreign currencies, and the quarter included another record contribution in our Rest-of-World markets where we

delivered growth of 27% for the full year. As we previously anticipated, uncertainty resulting from customer consolidation activity continued to impact our performance in North America but we remained focused on providing value to our customers while maintaining strict operational execution across the various dimensions of our business. Additionally, our free cash flow was robust and we delivered on our commitment to accelerate our share repurchase activity in the fourth fiscal quarter. Overall, we grew non-GAAP diluted earnings per share by 7% in fiscal 2015, which is consistent with the high-end of our guidance issued at the start of the year,” said Eli Gelman, president and chief executive officer of Amdocs Management Limited.

Gelman continued, “Our win rate was strong across all regions in fiscal 2015 and included several significant new awards in the fourth quarter. We are delighted to announce today that Vodafone UK has selected Amdocs for a major four-year managed BSS/OSS transformation project in support of its enterprise business. Additionally, KT Corporation in Korea has selected Amdocs under a multi-year services agreement for a strategic charging transformation project to consolidate and modernize charging operations across its quad-play lines of business, and Singtel has selected Amdocs for a digital transformation project targeted to deliver a new online care and commerce platform in its key markets of Singapore and Australia. Finally, in North America, we extended our existing managed services arrangement with Bell Canada for five years through 2022 and signed a new agreement with Rogers Communications to service multiple lines of business for three years through 2018.”

Gelman concluded, “Looking into fiscal 2016, we expect to deliver non-GAAP earnings per share growth of 3.5% to 7.5%. This outlook takes into consideration many macro and industry specific risks and unknowns, including uncertainties related to AT&T’s discretionary spending plans, although we cannot predict all possible outcomes. Additionally, we are pleased to announce that our Board has approved an increase in the quarterly cash dividend for the third consecutive year to a new rate of \$0.195 per share. The decision reaffirms our commitment to enhance long-term shareholder value, and will represent an improvement of nearly 15% over the current dividend rate if approved by shareholders at the annual meeting in February 2016.”

Financial Discussion of Fourth Fiscal Quarter Results

Free cash flow was \$180 million for the quarter, comprised of cash flow from operations of \$207 million less \$27 million in net capital expenditures and other.

Twelve-month backlog, which includes anticipated revenue related to contracts, estimated revenue from managed services contracts, letters of intent, maintenance and estimated on-going support activities, was \$3.08 billion at the end of the fourth quarter of fiscal 2015, up \$70 million sequentially.

Fiscal Year 2015 Results

For the fiscal year ended September 30, 2015, revenue increased by 2.2% to \$3.6 billion. Fiscal 2015 net income on a non-GAAP basis was \$529.7 million, or \$3.38 per diluted share (excluding amortization of purchased intangible assets and other acquisition-related costs, nonrecurring restructuring charges associated with the acquisition of the Comverse BSS assets, changes in fair value of certain acquisition-related liabilities and equity-based compensation expenses of \$83.5 million, net of related tax effects), compared to non-GAAP net income of \$509.6 million, or \$3.16 per diluted share, in fiscal 2014 (excluding amortization of purchased intangible assets and other acquisition-related costs, changes in fair value of certain acquisition-related liabilities and equity-based compensation expenses of \$87.5 million, net of related tax effects). The Company's GAAP net income in fiscal 2015 was \$446.2 million, or \$2.85 per diluted share, compared to GAAP net income of \$422.1 million, or \$2.62 per diluted share, in fiscal 2014.

Financial Outlook

Amdocs expects that revenue for the first quarter of fiscal 2016 will be approximately \$905-\$945 million. This outlook takes into consideration our expectations regarding macro and industry specific risks and various uncertainties resulting from current and potential customer consolidation activity in North America. However, we remind you that we cannot predict all possible outcomes.

Diluted earnings per share on a non-GAAP basis for the first fiscal quarter is expected to be \$0.82-\$0.88, excluding amortization of purchased intangible assets and other acquisition-related costs, and approximately \$0.09-\$0.10 per share of equity-based compensation expense, net of related tax effects. Amdocs estimates GAAP diluted earnings per share for the first fiscal quarter will be \$0.59-\$0.67.

Quarterly Cash Dividend Program

On November 10, 2015, the Board approved the Company's next quarterly cash dividend payment of \$0.17 per share and set December 31, 2015 as the record date for determining the shareholders entitled to receive the dividend, which will be payable on January 15, 2016. The Board also approved an increase in the Company's quarterly cash dividend payment to \$0.195 per share, which is anticipated to be paid in April 2016, provided that the increase is approved by shareholders at the February 2016 annual general meeting of shareholders.

Non-GAAP Financial Measures

This release includes non-GAAP diluted earnings per share and other non-GAAP financial measures, including free cash flow, non-GAAP cost of revenue, non-GAAP research and development, non-GAAP selling, general and administrative, non-GAAP operating income, non-GAAP operating margin, non-GAAP interest and other expense, net, non-GAAP income taxes, non-GAAP net income and non-GAAP diluted earnings per share growth. These non-GAAP measures exclude the following items:

- amortization of purchased intangible assets and other acquisition-related costs;
- changes in fair value of certain acquisition-related liabilities;

-
- nonrecurring restructuring charges associated with the Converse acquisition;
 - equity-based compensation expense; and
 - tax effects related to the above.

These non-GAAP financial measures are not in accordance with, or an alternative for, generally accepted accounting principles and may be different from non-GAAP financial measures used by other companies. In addition, these non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles. Amdocs believes that non-GAAP financial measures have limitations in that they do not reflect all of the amounts associated with Amdocs' results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate Amdocs' results of operations in conjunction with the corresponding GAAP measures.

Amdocs believes that the presentation of non-GAAP diluted earnings per share and other financial measures, including free cash flow, non-GAAP cost of revenue, non-GAAP research and development, non-GAAP selling, general and administrative, non-GAAP operating income, non-GAAP operating margin, non-GAAP interest and other expense, net, non-GAAP income taxes, non-GAAP net income and non-GAAP diluted earnings per share growth when shown in conjunction with the corresponding GAAP measures, provides useful information to investors and management regarding financial and business trends relating to its financial condition and results of operations, as well as the net amount of cash generated by its business operations after taking into account capital spending required to maintain or expand the business.

For its internal budgeting process and in monitoring the results of the business, Amdocs' management uses financial statements that do not include amortization of purchased intangible assets and other acquisition-related costs, nonrecurring restructuring charges associated with the acquisition of the Converse BSS assets, changes in fair value of certain acquisition-related liabilities, equity-based compensation expense and related tax effects. Amdocs' management also uses the foregoing non-GAAP financial measures, in addition to the corresponding GAAP measures, in reviewing the financial results of

Amdocs. In addition, Amdocs believes that significant groups of investors exclude these items in reviewing its results and those of its competitors, because the amounts of the items between companies can vary greatly depending on the assumptions used by an individual company in determining the amounts of the items.

Amdocs further believes that, where the adjustments used in calculating non-GAAP diluted earnings per share are based on specific, identified amounts that impact different line items in the Consolidated Statements of Income (including cost of revenue, research and development, selling, general and administrative, operating income, interest and other expense, net, income taxes and net income), it is useful to investors to understand how these specific line items in the Consolidated Statements of Income are affected by these adjustments. Please refer to the Reconciliation of Selected Financial Metrics from GAAP to Non-GAAP tables below.
